

**IN THE SPECIFICATION:**

On page 4, please rewrite the first full paragraph as follows:

Referring now to the drawings, FIG. 1 is a perspective view of a fuel cell stack which is configured for use in connection with the multi-stage, multi-stack fuel cell power plant formed in accordance with this invention, which stack is denoted generally by the numeral 2. The stack 2 has a fuel inlet connection 4 which opens into a fuel inlet manifold 6. The fuel inlet manifold 6 feeds fuel through the cells 14 in the stack 2 to a fuel reversal flow manifold 8 on the opposite side of the stack 2, whereupon the fuel flows back to a fuel outlet manifold 10. The fuel stream exits the stack 2 via a fuel outlet connection 12. Air is passed through the cells in the stack via the inlet and outlet manifold 16.
